

This is a video series of Dorcy Pruter interviewing Dr. Craig Childress on the topic of what is referred to as “Parental Alienation”. What inspires me about this (enough to finally take the action of getting this site up and running) is the totally different way Dr. Childress and Ms. Pruter discuss not only a completely different approach to fighting this dynamic, but also ways to help restore the damage done.

[A link to the rest of series can be found on her site](#), near the top of the front page.
